## OUR GOAL

The San Mateo Professional Alliance is a business networking and leads club. The club provides each member with valuable opportunities to promote his or her business or profession and to network with other business owners. Our goal is to expand each member's business. To do this we meet regularly to have lunch, to learn about each other's businesses and professions and to exchange business leads. The meetings run for about an hour. Each member and each guest provides a short introduction to his or her business and explains what kinds of business leads, customers and clients the person is looking for. Then, two of the members each give 15 minute promotional presentation. The club's membership is limited to only one representative from each type of business or profession. Wouldn't you like to have 25 - 35 other business owners referring you business from their current and future customers and clients, friends, relatives and acquaintances?

Club dues are very, very low – only those necessary to maintain the club's web site and brochure and to pay for direct out of pocket expenses of the club's operation. Membership in the club provides for an automatic listing on the club's website and in the club's brochure.

If you would like to increase the number of leads available to you for new business, if you would like to increase the number of networking opportunities you now have, if you would like to meet on a regular basis with other members of the business community in San Mateo County, please consider attending one of our Wednesday lunch meetings. Please contact Mike Foor (650) 430-6500 or Dulce Bird (650) 593-8424 to find out more about the club.

Join us any Wednesday at noon for lunch at Mimi's Cafe, Bridgepointe Shopping Center, 2208 Bridgepointe Parkway, San Mateo.
